SSCT IS GOING GREEN

At the May committee meeting the members voted to help reduce the carbon footprint of SSCT.

SSCT will be replacing one of our 3 year old Toyota Corollas with a Toyota Prius in July.

This hybrid car has 2 engines one electric and one that uses unleaded petrol.

When the car brakes or is waiting at traffic lights the vehicle runs on electricity and when it is travelling over 20km per hour it uses petrol. It is therefore especially efficient when driven in the inner city.

SSCT travels over 100Kms each day taking clients to their medical appointments and we refuel the current vehicle twice a week.

The new Prius will travel 100km using only 3.1 litres of petrol, this will mean that the driver will refuel about once a month, which is not only a huge cost saving for SSCT as we currently refuel twice a week, but we start to reduce the pollution we contribute to our beautiful city.

TRANSPORT EXPO

Along the same lines, SSCT in partnership with STA and the Taxi Council of NSW are hosting a public transport EXPO on Monday 29th June. It will be held at the Australian Technology Park between 10:00am and 12:30pm.

Redfern and Waterloo residents will be able to find out about the public transport options in the local area. Older residents will be offered tips on how to travel more safely on STA buses and of course morning tea will be served with a smile.

If you require transport to the event, please call SSCT on 9319 4439.

SSCT will provide a shuttle service to the ATP and the STA is providing bus pick ups from the 355 bus stop in Phillip St. Redfern and Raglan St, Waterloo at 9:30am
